Subject: Re: August Activities, ERDC CAD Cell Modeling Effort

Bob - sorry for the delay...vacations, etc. Yes we'll be all set with this.

	Subject	August Activities, ERDC CAD Cell Modeling Effort

G'morning Dave!

During our last ERDC CAD Cell Modeling conf. call, I was given the following Action:

"Leitch to set up a conf. call in mid-August when upper harbor CAD Cell is being modeled to discuss which DMU Unit the sediment going into the CAD Cell will come from."

Certainly this call should happen after we receive the draft lower harbor CAD Cell modeling report due the middle of this month - I am currently getting the specific date from ERDC.

Will we be ready to give ERDC the DMU info by the 3rd full week of August?

Tx

Bob

PS - I am assuming this CAD cell Modeling effort is one of those activities that is not being transferred to Elaine? Pl. advise.
